

Tower pincers - 531/4P

Description

- material: special tool steel
- drop forged, entirely hardened and tempered
- the cutting edges are induction-hardened to 61HRc
- head surface finish: finely ground
- surface finish: phosphated to standard DIN 12476
- handles plastic dipped
- made according to standard ISO 9242
-

Advantages:

- the precise form of the joint enables the automatic opening of the wrench in a horizontal position, so the force is applied only during crimping of the wires
-

Usage

- useful for the binding and crimping of wires
