

# Event stand

1693F

## Usage

## Profiles

[\(/eng/support/warranty.\)](#)

## Product features

- Event stand helps you store up to 10 bikes by the saddle. Useful at outdoor races and events as well as for indoor storage.
- Event stand can be used in long or short version: Length of useful bike holding area in the long version is 2090 mm and in short version 1260 mm. Length is easily adjustable with a connecting tube.
- Stand comes in a compact bag that stores all the parts securely and it's easy to carry around.
- Stand is made from aluminum parts and weights only 7.5kg in longer version.
