

Product Information – R300DCT+ EU

300mm (12") Electric Disc Cutter with Dust Suppression

Product Code: 012-0003A

Barcode: 0849713087409

Bullet Points:

- Huge 115mm cut depth
- Water fed dust suppression in accordance with regulations.
- Powerful 2400w** Electric Motor. No pull chords, no fuel & no servicing!
- Wheeled skid plate
- Steel wrap-around front handle with rubber grip
- Adjustable blade guard for easy vertical & horizontal cutting
- Multi-tool with onboard tool storage included
- 4m heavy-duty rubber cable
- 300mm premium diamond blade included
- Reversible flange for 20mm or 22.2mm bore blades.
- Blade Brake & Soft Start
- Power Protect Technology
- 3 Year Guarantee

Description:

Born to conquer the professional job site, the all new R300DCT+ electric disc cutter is the perfect masonry saw for the pro's when effective dust control is a must. It has an impressive cut depth of 115mm making this one of the deepest cutting 300mm machines on the market. The built-in dust suppression features dual sided water delivery, armoured hose routing & robust brass hose connection and is compliant with dust management regulations. This saw comes armed with a 300mm premium diamond blade packed with 35% more diamond* and features a multi-compound cutting edge designed to cut faster, cleaner & for longer. The high torque 2400w** electric motor delivers consistent peak power and stops the machine from slowing down under heavy load. It starts first time, every time and does not emit any harmful fumes making this suitable for use in enclosed spaces. Plus, you don't need to worry about expensive fuel or servicing allowing you to focus on the job. The wheeled skid plate takes the strain out of long, ground level cutting and also allows you to put the saw down while the blade is still spinning. This saw utilises our Power Protect Technology which protects internal parts from dust & water ingress making it fit for use in the most demanding environments and comes backed by a 3 year guarantee. The watertanks are not supplied and can be purchased separately. We have 2 models for use with hand or foot.

* Vs Evolution general purpose diamond blade.

** 230v only. 110v is 2000w with 32A plug.

Box Contains:

1 x R300DCT+ Disc Cutter

1 x 300mm/12" Premium Diamond Blade

1 x Multi-tool

1 x Instruction Manual

1 x Dust Port Adaptor

Specification:

Power: 230v - 2400w

Speed no load: 230v - 5090rpm, 110v – 4400rpm

Blade Size: 300mm

Flange: 20mm & 22.2mm

Product Weight: 9.7kg

Product Dimensions (H x L x W) mm : 400 x 780 x 270

Packaging Dimensions (H x L x W) mm : 430 x 745 x 295

Cable: 4m Rubber

Product Information – 300mm Multi-Material Diamond Blade

Product Code: MD300SEG-CS

Barcode: 0849713091604

Bullet Points:

- 300mm Diameter
- 22.2mm Bore
- 3.4mm Segment Thickness
- Max. 6400rpm

Description:

Utilising advanced diamond technology, this one diamond blade is capable of cutting most common building materials including stainless steel, ductile iron, rebar, reinforced concrete, hard & soft stone, brick, tile, wood, plastics & more! Up to 30x longer life vs an abrasive wheel when cutting metal plus the steel body won't shatter or emit harmful dust making this a safer cutting solution. The steel body with concentrated diamond cutting edge maintains its full diameter for the entire life of the blade.

Box Contains:

- 1 x MD300SEG-CS
