- Tool storage inside the machine
  
- 3m heavy-duty cable
- 300mm diamond blade included
- Reversible flange for 20mm or 22.2mm bore blades.
- Blade Brake & Soft Start
- Power Protect Technology for longer tool life
- 3 Year Guarantee

---

#### Description:

Redesigned from the ground up - the all new R300DCT electric disc cutter is the simplest tool for cutting concrete, reinforced concrete, stone, brick, paving & more! It has an improved cut capacity of 115mm vs the existing model making this one of the deepest cutting 300mm machines on the market! The high torque 2400w\* electric motor delivers consistent peak power and stops the machine from slowing down under heavy load. The motor starts first time, every time and does not emit any harmful fumes making this suitable for use indoors or in enclosed spaces. Plus, you don't need to worry about expensive fuel or servicing! It features a wheeled skid plate which makes light work of long, ground level cuts and it also lifts the blade off the ground so it can be put down even while the blade is spinning. This saw utilises Power Protect Technology which protects internal parts from dust & water ingress for longer tool life and comes backed by a 3 year guarantee. Try it for yourself!

\*230v only, 110v is 1600W with a 16a plug.

---

#### Box Contains:

1 x R300DCT Disc Cutter

1 x 300mm/12" Diamond Blade

1 x Multi-tool

1 x Instruction Manual

---

**Specification:**

Power: 2400w 230v

Speed no load: 230v - 5090rpm, 110v - 440rpm.

Blade Size: 300mm

Flange: 20mm & 22.2mm

Product Weight: 9.7kg

Product Dimensions (H x L x W) mm : 400 x 780 x 270

Packaging Dimensions (H x L x W) mm : 430 x 745 x 295

Cable: 3m Rubber

## Product Information – 300mm PREMIUM Diamond Blade

Product Code: PD300SEG-CS

Barcode: 0849713091444

---

### Bullet Points:

- 300mm Diameter
- 22.2mm Bore
- 2.9mm Segment Thickness
- Max. 5100rpm

---

### Description:

Cuts faster. Cuts longer. Cuts smoother. Our premium diamond blade is packed with 35% more diamond Vs our general purpose diamond blade giving you faster cuts and superior blade life plus the specially designed multi-compound segments give you a smoother finish. Large 13mm segment height keeps the blade sharper for longer offering excellent value for money.
